

## Personal Data

### **Michael Hank**

#### **Founder and Chief Executive Officer**

Michael Hank has been the CEO of Seccua Limited Company since April 2005. In this position, he is mainly responsible for strategy, distribution and product development. Up until June 2008, he has already implemented more than 400 reference projects for Seccua in German-speaking countries.

After studying Utility Technology, Hank founded Inge AG in 1999, which was the first manufacturer of ultra-filtration membranes for treating water and sewage water in Germany. Under his management, the company achieved a turnover of 3.5 million Euro by the end of 2004. In April 2005, Michael Hank sold the majority of his shares back to Inge AG and resigned from the company as a member of the board of directors, in order to concentrate fully on the development of Seccua.

Michael Hank began his business career in distribution and in the business development of an American company specialized in membrane technology for water desalination.
